About the Conference

The One-Day International e-Conference on Interdisciplinary Research in Science and Technology (ICIRST 2026) is an academic platform designed to bring together Ph.D. research scholars, postgraduate students, faculty members and researchers working across diverse areas of science and technology. The conference provides an opportunity to present original research, share recent findings and methodologies, exchange ideas, and engage in meaningful academic discussions across disciplinary boundaries. With a focus on interdisciplinary perspectives, ICIRST 2026 seeks to connect researchers from areas including Chemistry, Physics, Life Sciences and Biotechnology, Zoology, Botany and Plant Sciences, Environmental Science, Mathematics, Statistics, Computational Sciences, Information Technology and emerging technologies. The e-conference format enables wider national and international participation, facilitating academic interaction, research dissemination and networking beyond geographical boundaries. The conference also provides a platform for identifying emerging research areas and fostering potential interdisciplinary research collaborations in science and technology.

Aim and Objectives

- To provide an international platform for Ph.D. research scholars, post graduate students, faculty members and researchers to present their original research and scholarly work.
- To facilitate the exchange of recent research findings, methodologies, ideas and emerging developments in science and technology.
- To promote interdisciplinary perspectives and approaches by bringing together researchers and academicians from diverse scientific and technological disciplines.
- To provide young researchers with opportunities to communicate their research, receive academic feedback and enhance their research presentation skills.
- To identify emerging research areas and interdisciplinary research opportunities for further investigation.
- To facilitate academic networking and potential research collaborations at national and international levels. To encourage the application of interdisciplinary research towards relevant scientific, technological, environmental and societal challenges.

About the Host Institutions

G. M. Vedak College of Science, Tala

Established in 2009 by Shri Gopinath Mahadeo Vedak Pratishthan, G. M. Vedak College of Science, Tala, aims to provide quality higher education to students from the rural, tribal and hilly regions of Raigad district. Affiliated to the University of Mumbai and recognized by the Government of Maharashtra, the College offers UG programmes in Physics, Chemistry, Zoology, Computer Science and Information Technology, along with PG programmes in Organic Chemistry and Information Technology. Its recognized Research Centre in Chemistry promotes research and innovation. Re-accredited with 'B Grade' in the second NAAC cycle (2024), the College is committed to academic excellence and holistic development. Guided by the motto "Vidyadhanam Sarvadhanam Pradhanam" (Knowledge is the foremost wealth), it fosters scientific aptitude, critical thinking, creativity and professional skills through qualified faculty, well-equipped laboratories, library, computer facilities and technology-enabled learning. The institution encourages higher education, research, employment, entrepreneurship and responsible citizenship.

D. G. Tatkare College, Mangaon

Established in 1958, Mangaon Shikshan Prasarak Mandal was founded by educationists, entrepreneurs, philanthropists and socially committed individuals with the vision of promoting education and societal development. In 1993, Late Ashoka Dada Sable established D. G. Tatkare Mahavidyalay to provide quality education to students from rural areas and contribute to social upliftment. Since its inception, the institution has been committed to educating approximately 1,500 students from economically disadvantaged rural backgrounds. Affiliated to the University of Mumbai, the College offers 6 Undergraduate and 6 Postgraduate programmes and has been re-accredited with 'B+ Grade' in the second NAAC cycle (CGPA 2.64). It promotes academic excellence, ethical values, holistic development, and lifelong learning through an inclusive and supportive educational environment. The institution is dedicated to nurturing students' academic, moral and spiritual growth while preparing them to contribute meaningfully to society and a dynamic world.
